Mr. Franke asked that Blandon Fire Company be included should they wish to participate in the training. Mr. Rudderow asked if the County had a training facility for confined space training. REPORTS

ENGINEER'S REPORT

**Farvardin Conditional Use**

A motion was made by David Franke to authorize the advertisement of a conditional use hearing for an assisted living facility at 384 Evansville Road on April 14, 2016 beginning at 6:30 p.m. Claude Beaver seconded the motion and hearing no questions on the motion, it passed unanimously.

**2016 – 2017 Paving Projects**

Mr. Unger reviewed costs associated with repairs to Kemmerer Road, Ridge Road (from bridge to Kemmerer Rd), Berk Road (performed by road crew), Lee Spring Road (estimate \$75,000 for base repair and overlay) and Evansville Road (up to \$400,000). The Board was open to the idea of applying oil and chip to Kemmerer and Ridge Roads (\$60,000). The Board asked that a traffic count be performed on Evansville Road. If there is very little traffic and the road is not built for heavy trucks, the Board felt that it might not be prudent to spend two years' worth of roadwork funds on Evansville Road. Mr. Rudderow asked if the road could go back to gravel. There was agreement to proceed with Kemmerer Road, Ridge Road and Lee Spring Road and the engineer was asked to develop costs for storm water projects on Ina and Adele Avenue and W Walnut Tree Drive. Joseph Rudderow confirmed with the engineer that oil and chip will hold up on roads travelled by heavy farm equipment. Diane Hollenbach discussed with the Board the road crew foreman's idea of seal coating roads to get additional wear out of them. To do all the roads in the Shadow Ridge Development, it would cost \$13,000. The material is not approved
