

Please Remove Basketball Nets from the Street

News Release Date

01-05-2024

As the township prepares for the winter maintenance season, we are asking everyone with a basketball net in the street to move it onto your property out of the road right of way. We do not want to damage your net or our trucks as has happened in the past. We will send out official letters to property owners where nets remain in the street at the end of the year. Below is a link to the township ordinance we have had in place for many years.
